65 projects · 20 years logged at fousa.be

Twenty years of building software, mostly iOS with Rails on the web side. Freelance since 2012. Lately I pair with AI agents on most work, running my own apps as a product owner. Off the keyboard I fly gliders, which is where those apps come from.

EXPERIENCE

● 2022 → now	**itsme** · Brussels	Freelance iOS developer
2021 → 2022	**Aviobook** · Hasselt	Expert iOS developer
